

Why clear IAS Exam the Difficult way? Do it the Easier Way!

Why Aasaan IAS? The Key Advantages

#1. Helps in Understanding the mindset of the Paper setter!

Most of the IAS aspirants have desire to become an IAS officer. So they **work hard day & night**, read many books and gain so much of knowledge. It is a good thing but not sufficient to become an IAS officer. You can understand the fact, "Just wearing the dress of a king, one cannot become a king". Similarly without changing the basic nature of your thought process, **just covering yourself with the knowledge which is borrowed from books** and other sources is not the surest way to be successful in this race.

We at Aasaan IAS, focus on understanding the mindset of the paper setter and analyzing what is expected from an ideal candidate. The entire program is designed based on this key approach. One should improve one's interpretation, analyzing, comprehending and observational skills. Aasaan IAS works exactly on this."

#2. Uses Imaginative Visual Approach!

Aasaan IAS has pioneered the unique Imaginative Visual Approach which makes preparation up to ten times faster and easier. It is a novel concept which makes the student visualize the situation immediately. When understood in this manner, the concept gets embedded in the memory of the student and he/she will be able to answer a question in a broader sense using commonsense not memory.

#3. Learning the way of learning!

The old age days of rote learning have gone! Most of the present day competitive exams are based on understanding ability and commonsense. Though the syllabus is same for all aspirants, some aspirants feel that the exam easy where as others struggle to clear it. It is not just based on hard work. The way of understanding the concepts plays a major role in clearing reputed competitive exams like Civil Services. We at Aasaan IAS, Understand this fact and developed concepts based on such learning method which the paper setter is expecting from the Candidate.

#4. Unparalleled Insights and Focus on Strategy!

Through in depth analysis of the previous year papers, we have developed insights that are unique to each exam and are the key to cracking them. Every exam has a different flavour and requires different strategy to crack. Eg. Civil Services Exam and CAPF are both are conducted by UPSC but require entirely different approaches to crack. Success in a competitive exam is 50 percent preparation and 50 percent

strategy. Thus we play equal emphasis on strategy which sadly is neglected by most of the aspirants.

Available courses

Aasaanias.com offers the smarter way to crack the Civil Services Exam. Here's how we are different from the traditional coaching institutes:

Traditional Way	The Aasaan IAS Advantages
<p>Advised to Study hard for 16-18 hours a day putting undue stress on the mind of the aspirants making them confused and unsure.</p>	<p>At Aasaan IAS, the study material has been prepared after understanding the mindset of the paper setter helping to improve one's critical thinking and observational skills.</p>
<p>Burden yourself with borrowed knowledge from books that may or may not be relevant.</p>	<p>We make you understand to read what is relevant only & and more importantly, to leave out what may not be relevant.</p>
<p>Most institutes follow the traditional classroom study modules where the message is that your success depends upon your memory power only. More you learn, more chances of success.</p>	<p>Through years of research, the Aasaan IAS has pioneered the unique Imaginative Visual Approach which makes preparation up to ten times faster and easier. When understood in this manner, the concept gets embedded in the memory of the student and he/she will be able to answer a question using commonsense & not memory which is the demand of the paper setter.</p>
<p>The traditional institutes still believe in rote learning whereas Most of the present day competitive exams are designed to check the understanding ability and commonsense of the candidates.</p>	<p>Understanding the concepts plays a major role in clearing competitive exams like Civil Services. We at Aasaan IAS, have developed the concepts based learning methods which the paper setter is also expecting from the Candidate.</p>
<p>Same traditional method of teaching that has not evolved over the years. The emphasis is only on covering the syllabus.</p>	<p>The 'syllabus approach' does not work anymore as every year; the civil services exam has a different flavour. Through in depth analysis of the previous year papers, we have developed several unique insights are the key to cracking the future exams. Success in this exam is 50% preparation and 50% strategy.</p>

<p>The traditional coaching institutes are now frightfully expensive with no guarantee of success. Average fee plus living expenses sometimes crosses Rs.5 lac a year putting huge financial burden on the families of aspirants.</p>	<p>Aasaan IAS uses the power of technology to make preparation convenient, effective and with huge cost savings (almost 1/10th of the fee charged by coaching institutes). All you need is a laptop /smart phone and an internet connection.</p>
<p>At the coaching institutes, you have to follow a certain fixed routine and you fear to miss the lectures.</p>	<p>Here you learn at your own pace and with no wastage of travelling time. Also, you can watch all episodes over and over again till your concepts get clear.</p>
